Dear Jason,

Almost 12 months has past since we took delivery of the New Horizon VAC-100 Collator with SPF-20A Automatic Stitch/Fold/Trim and I must write to say how pleased we are with this equipment and the very high quality of booklet and brochure work that we are now able to produce. The build quality and reliable performance are second to none.

We are also pleased with the level of support and advise provided by G-A-E and yourself and I would not hesitate in recommending your products and services.

Thank you again and I'll be in touch soon to discuss the purchase of more finishing equipment from G-A-E.

Kind Regards,

Ian Greatorex
Managing Director
